Career Objective

Driven and dedicated software professional seeking a responsible career opportunity that allows me to utilize my technical skills, knowledge, and problem-solving abilities. I aspire to contribute meaningfully to the growth of the organization by delivering innovative and efficient solutions. I aim to further develop my expertise, enhance my career prospects, and achieve long-term professional success, while aligning my growth with the company's objectives.

Education

Bachelor of Technology in Computer Science and Engineering 8.27 CGPA	2021 - 2025
Intermediate in Sri Chaitanya Junior College 9.35 CGPA	2019- 2021
SSC in Sri Sai Victory English Medium High School 9.7 CGPA	2018 - 2019

Skills

- **Backend Technologies** : Java, SpringBoot, Hibernate
- ADAS and Autonomous Vehicle AI
- **Database** : MySQL
- **FrontEnd Technologies** : HTML, CSS, JavaScript, React, Bootstrap
- **Tools**: GitHub , Maven, Postman.
- **Core CS concepts** : DSA, OOPs.

Projects

Student Task Manager Web Application Tech Stack : HTML, CSS, Javascript, React Developed a Student Task Manager Web Application to help users organize and track daily tasks, assignments, and deadlines efficiently. Application allows users to add, update, delete, and monitor task status with user-friendly interface.	07/2025 to 10/2025
Hotel Management System by using Java Tech Stack : Java , PostgreSQL , Hibernate Developed a Hotel Management System to streamline hotel operations including room booking, check-in/check-out, and customer management. The application provides an intuitive interface for managing room availability, reservations, and billing processes efficiently.	12/2024 to 04/2025

Internships

Web Development Vaultsphere AI Technologies • Built responsive web interfaces using HTML, CSS, and JavaScript. • Assisted in backend API development using Java and Spring Boot. • Tested APIs using Postman.	12/2024 to 04/2025
Python with Data science EISystems Technologies • Applied libraries like Pandas, NumPy, and Matplotlib to extract insights from real-world datasets. • Built basic machine learning models and evaluated their performance to support data-driven decision-making. • Worked on data analysis, preprocessing, and visualization techniques.	05/2023 to 07/2023

Certifications

- Java Certification – HackerRank
- Web Development Internship Certification – Vaultsphere AI Technologies
- Data Science with Python – EISystems technologies
- Communication and Team Work Certification – Edx
